Romance · Revenge · Family · Thriller · Fantasy · Comedy · Crime · Historical

Languages

Hindi · English · Tamil · Telugu · Kannada · Bengali · Marathi

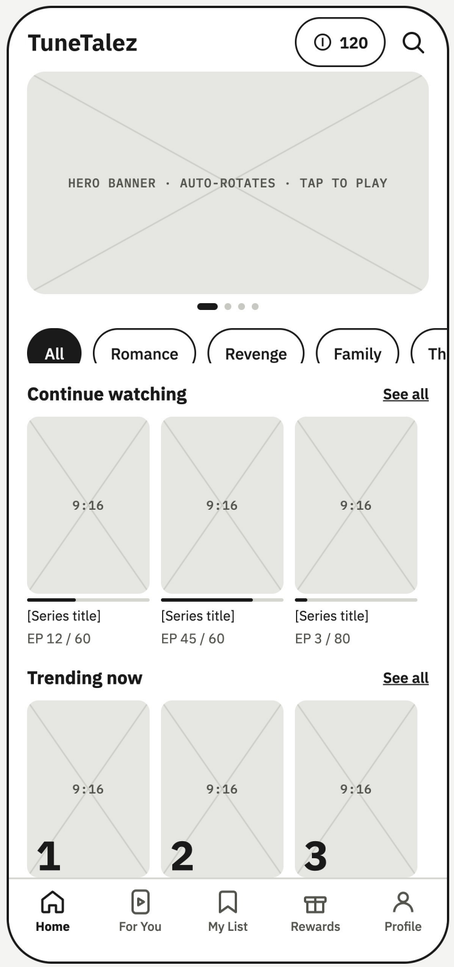

Continue

- Saved to the profile; drives Home rails and For You.
- Editable later in Settings.

02 · Discover

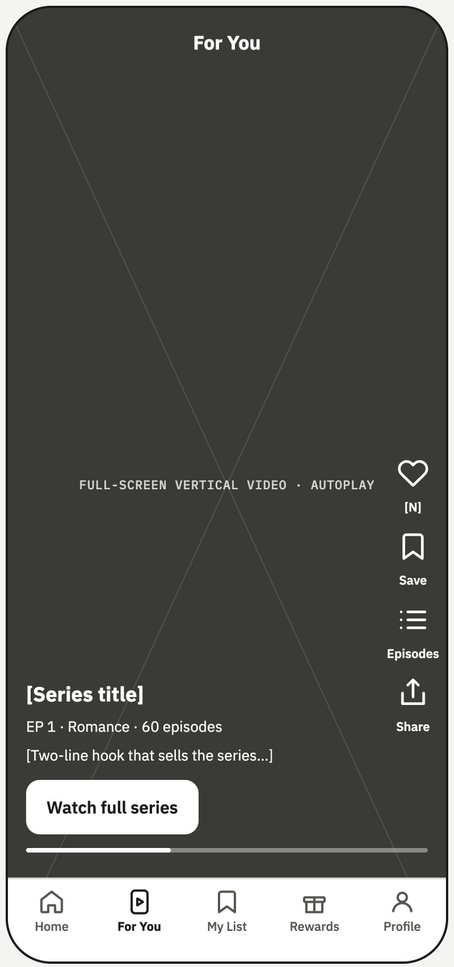

Home, the swipe feed, search and genre browsing. Bottom tabs: Home · For You · My List · Rewards · Profile.

2.1 Home

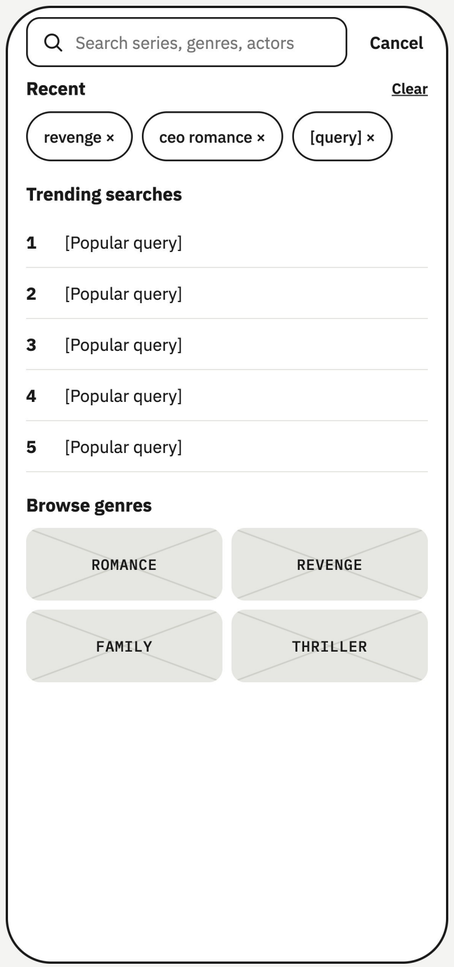

- Rails below the fold: New releases, one rail per picked genre.
- Coin pill → Store. Any poster → Series page.

2.2 For You · swipe feed

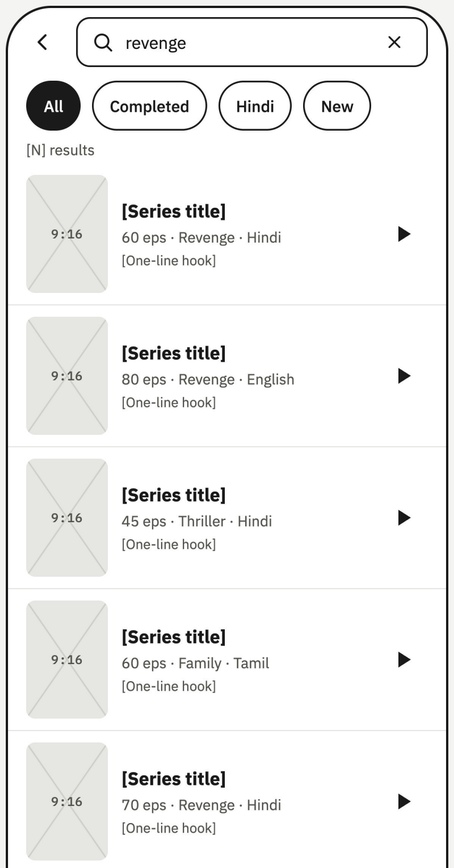

- Swipe up → next series. Tap → pause. Double-tap → like.
- Each card plays EP 1; "Watch full series" opens the Player.
- Preload the next 2 videos so swipes start instantly.

2.3 Search

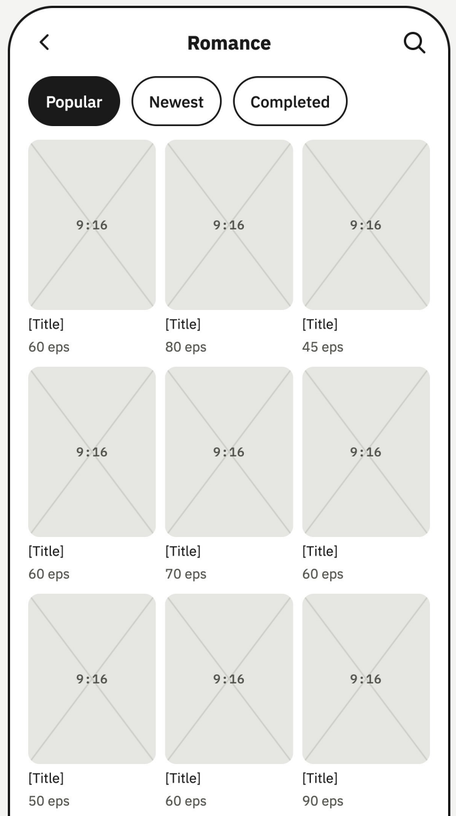

- Results appear as you type (300 ms debounce).
- Searches title, tags and cast.

2.4 Search results

- Row tap → Series page; play button → Player at EP 1.
- No results → show trending searches and genres.

2.5 Genre page

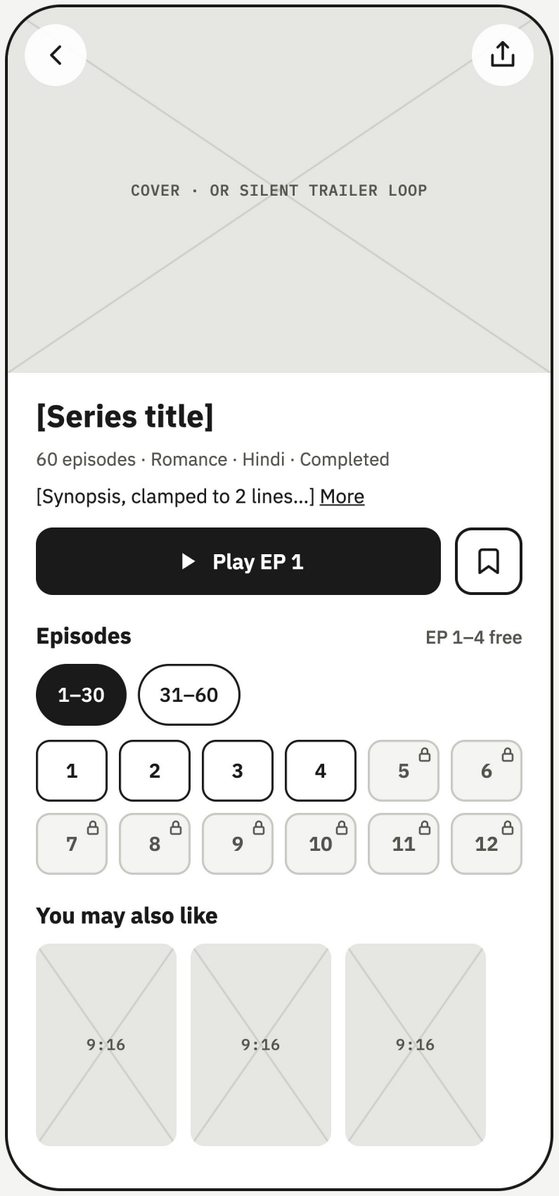

- Infinite scroll, 30 series per page.
- Same layout for "See all" on any Home rail.

03 · Series & Player

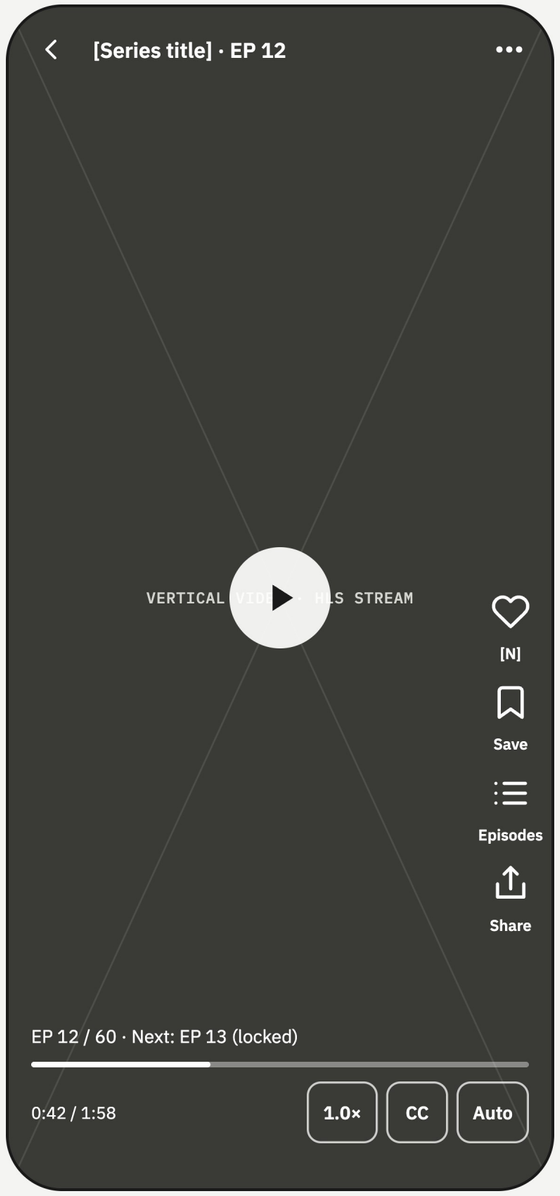

The core loop: open a series, watch, hit the paywall, unlock, keep going.

3.1 Series page

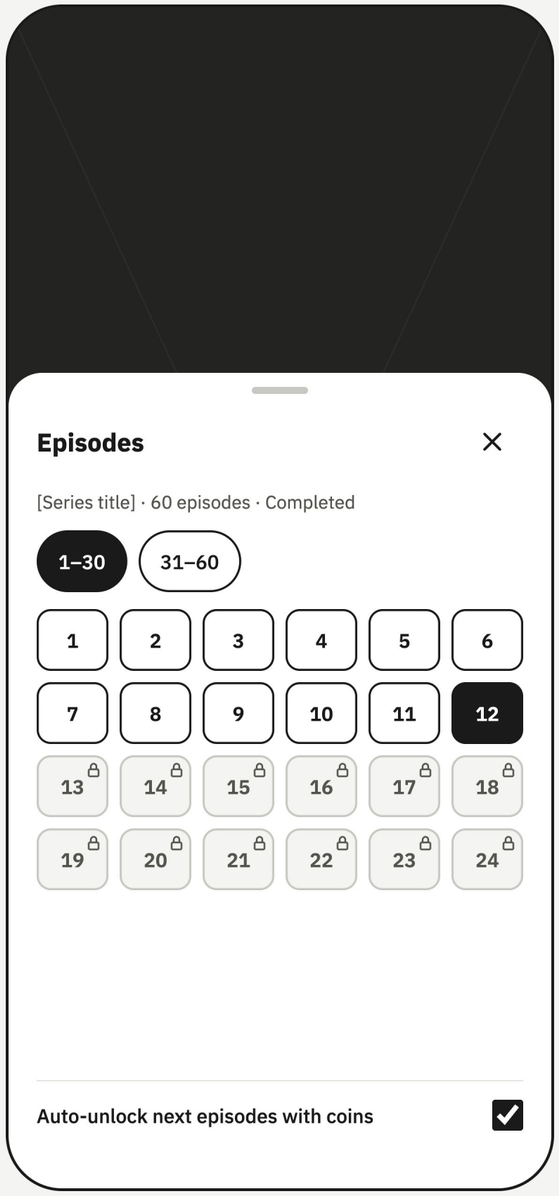

- Returning viewer: main button reads "Continue EP 12".
- Free-episode count is set per series in Admin.

3.2 Player

- Swipe up → next episode, down → previous. Tap → pause.
- Auto-plays the next episode; a locked one opens the Unlock sheet.
- Saves progress every 5 s so "Continue watching" resumes exactly.

3.3 Episodes sheet

- Current episode filled; locked ones show a lock.
- Tap a locked episode → Unlock sheet.

3.5 Up next

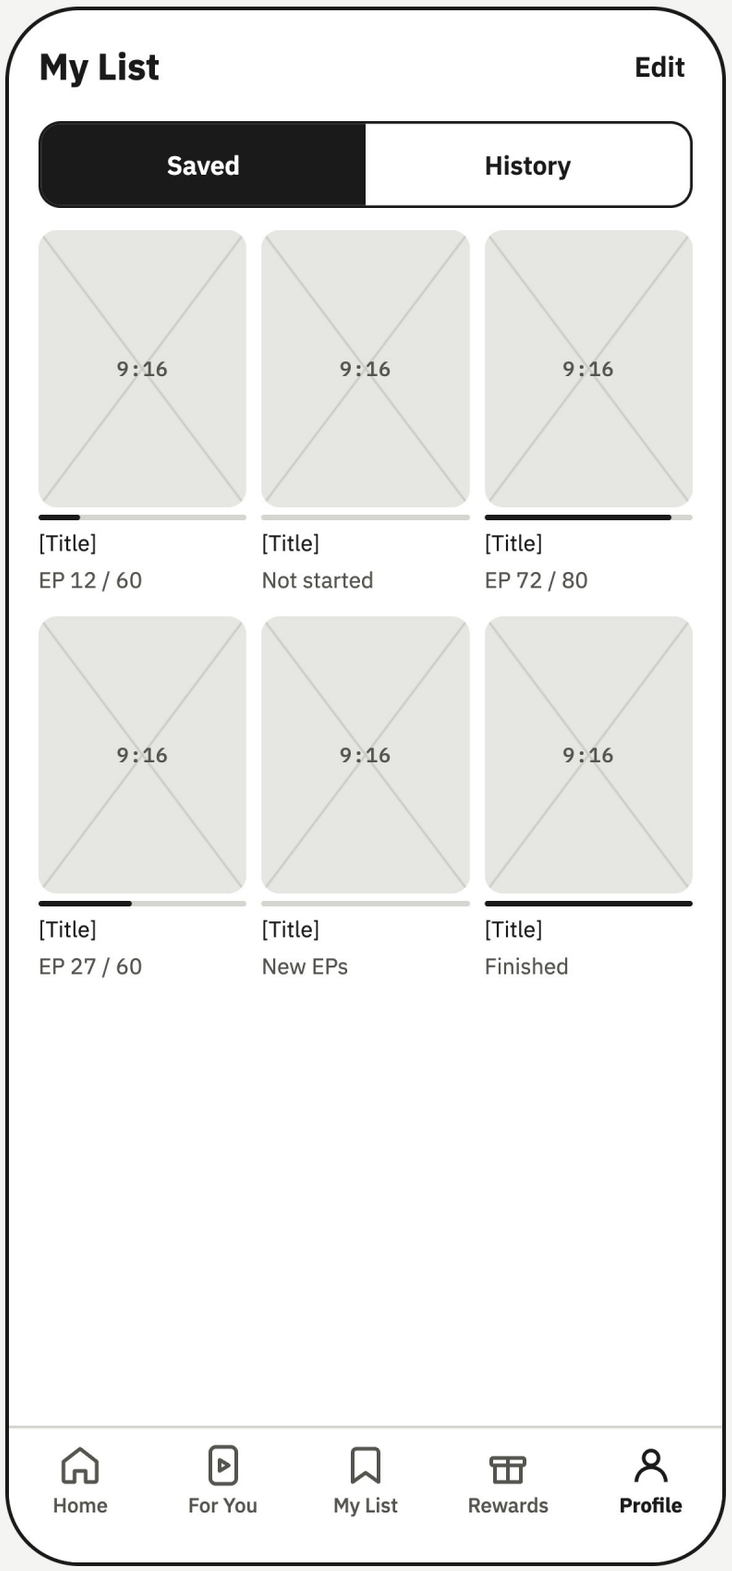

- 5-second countdown, then auto-plays.
- Last episode → "You finished it" + 3 similar series.

05 · My List & Activity

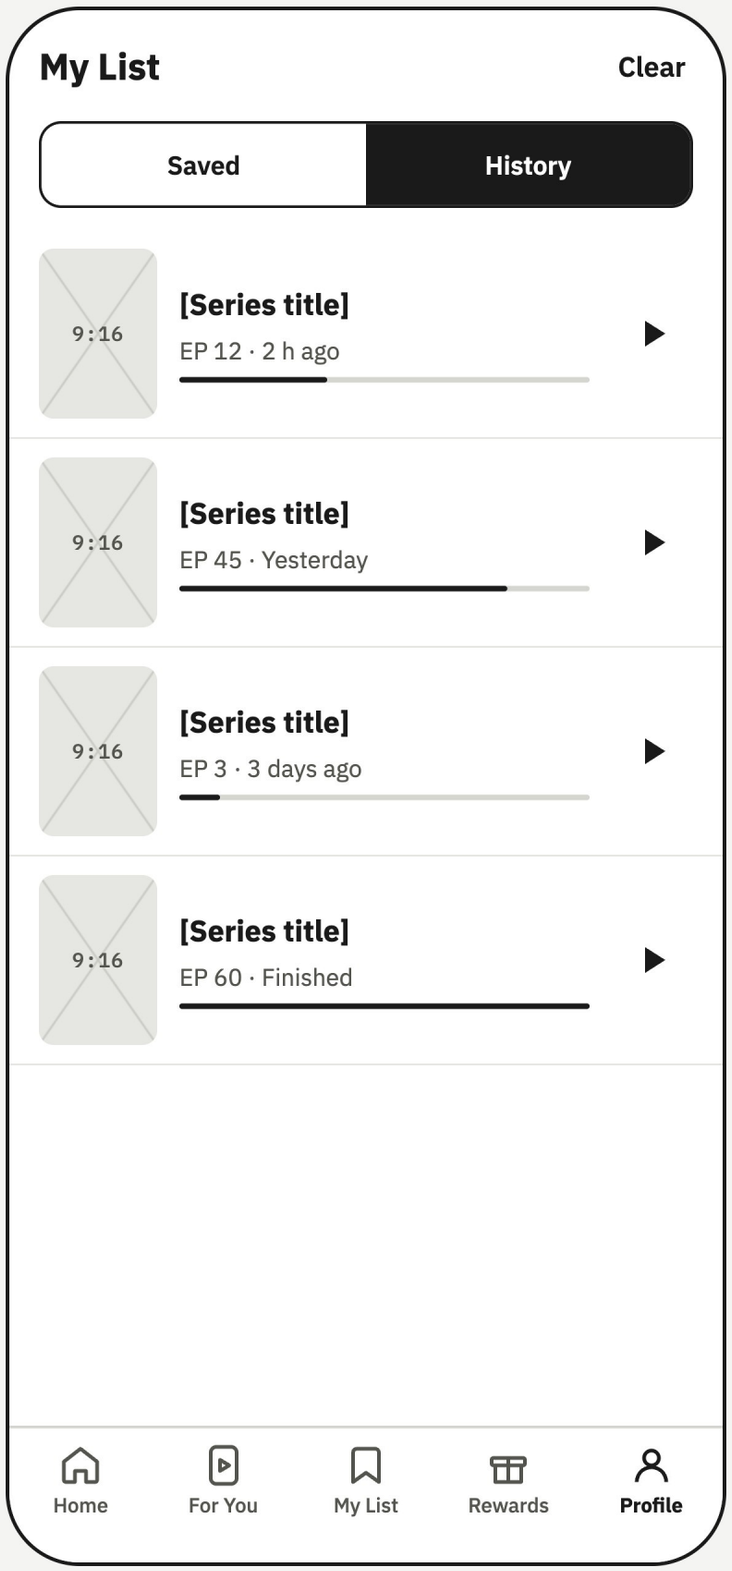

Saved series, watch history and notifications.

5.1 My List

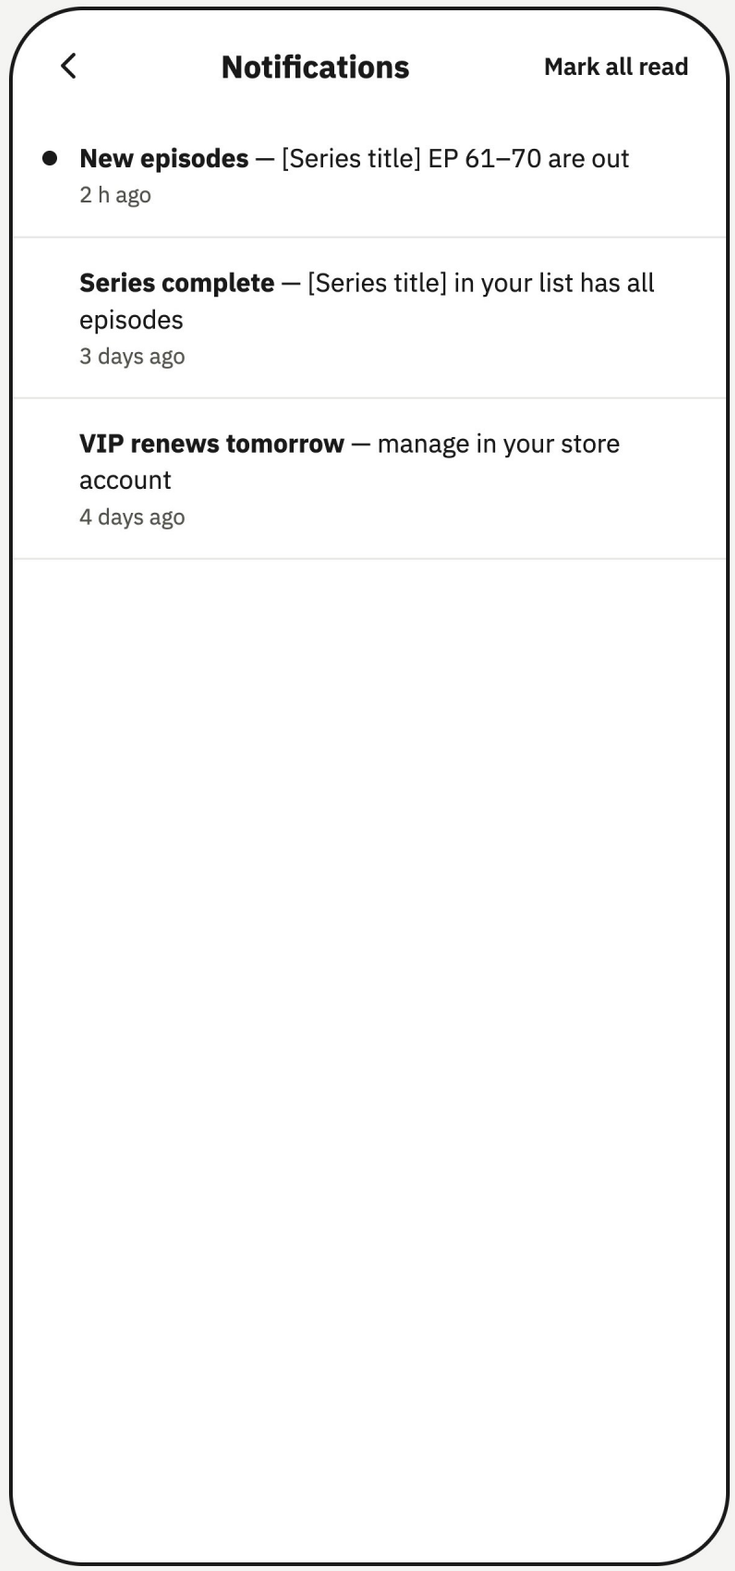

- Tap → resume at the last episode watched.
- Edit → select and remove; empty state links to Home.

5.2 History

- One row per series, newest first, from watch history.
- Swipe a row left to remove it.

5.3 Notifications

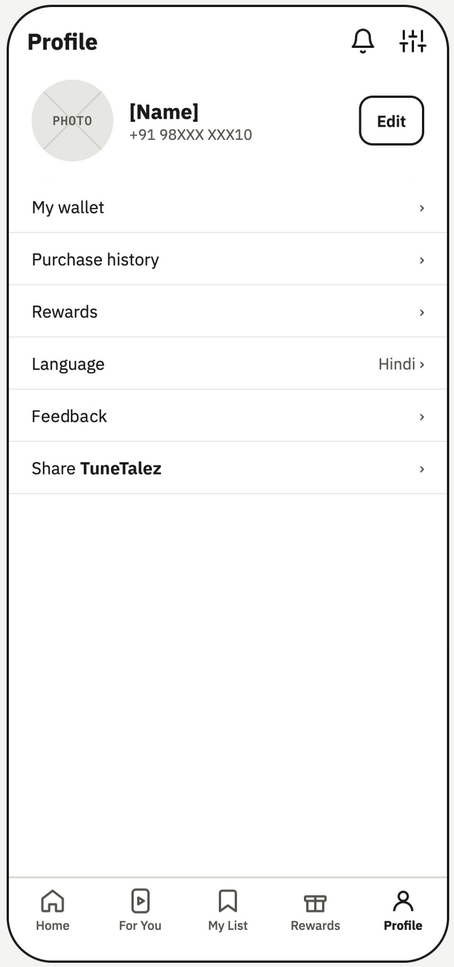

- Opened from the bell on Profile; each row deep-links.
- Push notifications need a push service — phase 2.

06 · Profile & Settings

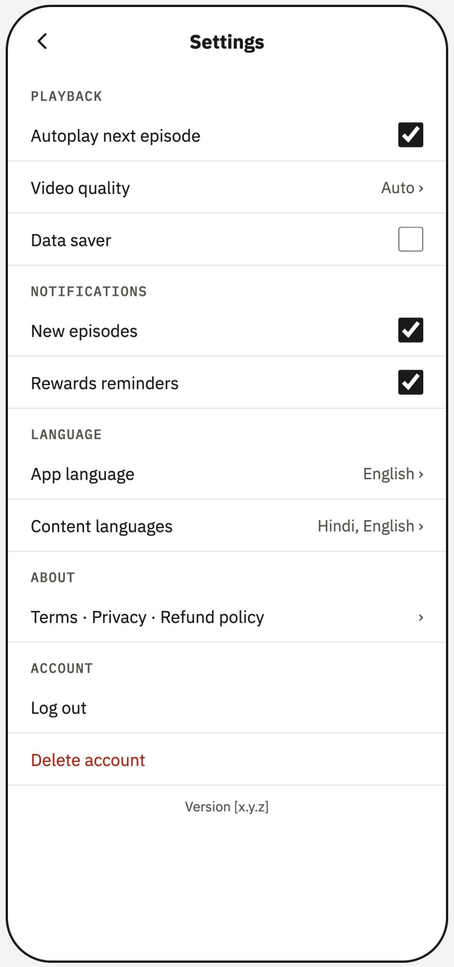

Account, preferences, help and the store-required account deletion.

6.1 Profile

- Guest view: same screen with a "Sign in" card instead of the name.

6.2 Settings

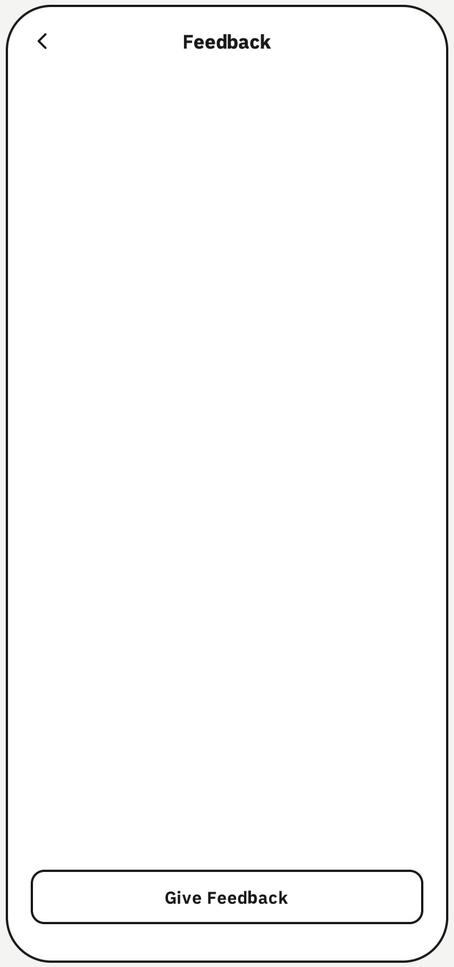

- Toggles save instantly to the profile; no Save button.
- Data saver caps video quality on mobile data.

6.3 Edit profile

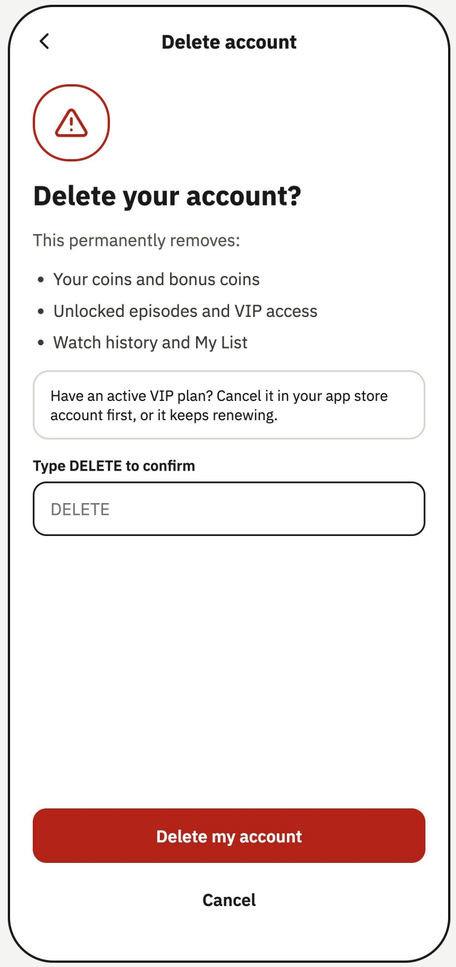

- Email is used for receipts only.
- Photo goes to storage; the profile keeps the URL.

6.4 Feedback

6.5 Delete account

- Required in-app by both the App Store and Google Play.
- Button stays disabled until DELETE is typed.
